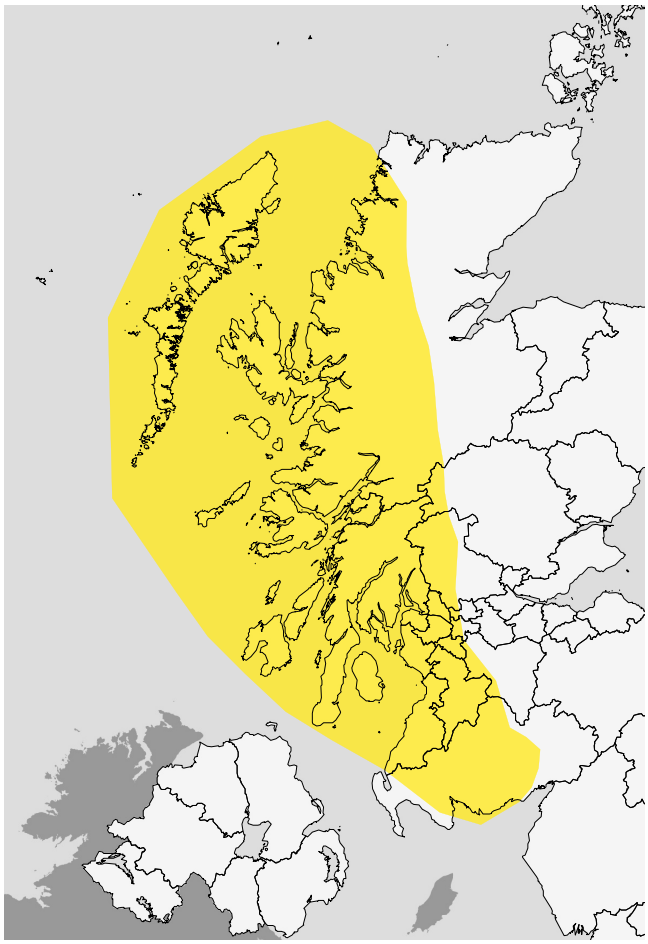
Yellow warning
Rain

Between
09:00 Wed 21 Aug 2024 and
15:00 Thu 22 Aug 2024



A period of heavy rain and strong winds could lead to impacts from flooding.

What to expect

- There is a small chance that homes and businesses could be flooded, causing damage to some buildings
- Where flooding occurs, there is a slight chance of delays or cancellations to train and bus services
- Spray and flooding could lead to difficult driving conditions and some road closures
- There is a small chance that some communities will become cut off by flooded roads
- There is a slight chance of power cuts and loss of other services to some homes and businesses
- There is a small chance that injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties

Further details

A band of rain is expected to move in from the southwest on Wednesday morning, becoming slow moving with heavy bursts of rain at times, especially over the hills. 75-100 mm is expected over the course of Wednesday and Thursday for some places, mainly over Argyll and West Highland, with the main bulk of the rain falling within a 24 hour period, with as much as 150 mm possible over some hills. Over Southwest Scotland accumulations of 30-50mm are likely.

The rain will be accompanied by strong southwesterly winds, with gusts perhaps reaching 50-60 mph on the coast and around the islands.

Very low likelihood of medium impacts

Yellow warning
Rain

Between
09:00 Wed 21 Aug 2024 and
15:00 Thu 22 Aug 2024

Further Details (continued)

With spring tides expected, this could also lead to some potentially dangerous conditions on the coast, with spray and wave overtopping. Peak winds are expected during Wednesday evening. Winds will ease through Thursday, along with a gradual clearance of the rain by the end of the day.

What should I do?

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you are on the coast, stay safe during stormy weather by being aware of large waves. Even from the shore large breaking waves can sweep you off your feet and out to sea. Take care if walking near cliffs; know your route and keep dogs on a lead. In an emergency, call 999 and ask for the Coastguard.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

Warning extended further south to include southwest Scotland, and eastern areas pulled back from central Scotland. End time brought forward by three hours.
